(II) Basic earnings per share: RMB1.21 per share.

III. MAJOR REASONS FOR THE ESTIMATED PROFIT INCREASE FOR THE PERIOD

During the Reporting Period, the Company's overall operating results registered a substantial year-on-year improvement, attributable to the following key factors. On the one hand, supported by the Company's refined operation and management, the Company tapped into internal potential for cost reduction and efficiency enhancement. Profit margins were expanded through technical process upgrades, energy consumption cutbacks and other initiatives, with key technical and economic indicators maintaining steady improvement. On the other hand, market prices of core products rose year-on-year. Seizing the upside price opportunity proactively, the Company optimised raw material and product mix, which drove a marked uplift in overall operating profitability.

IV. RISK WARNINGS

(I) The estimated results are only the preliminary estimates made by the finance department of the Company and have not been audited by an accounting firm. There is no material uncertain factor in relation to the Company that may affect the accuracy of the contents in this estimated results announcement.

(II) The secondary market price of the Company's shares is subject to various factors including macroeconomic conditions and market sentiment. Investors are advised to exercise caution when making investment decisions and pay attention to investment risks.

V. OTHER EXPLANATORY MATTERS

The above result estimates are only preliminary accounting data. Detailed and accurate financial information will be set out in the formally disclosed 2026 interim report of the Company. **Investors are advised to be aware of investment risks.**
